Papua New Guinea International Monetary Fund,2009-04-03 This 2008 Article IV Consultation highlights that GDP per capita for Papua New Guinea remains low. An unattractive investment environment, primarily owing to weak infrastructure, problems with governance, and high crime curtails development. Executive Directors have commended the authorities for saving the bulk of recent windfall mineral revenues and repaying public debt to improve the external debt position. They have also acknowledged the authorities' policy of slowing exchange rate depreciation to moderate inflationary pressures.

Gender Analysis in Papua New Guinea Elizabeth C. Brouwer,Bruce M. Harris,Sonomi Tanaka,1998-01-01 In October 1996, The East Asia and Pacific Region developed a Regional Gender Action Plan that stressed the importance of country-specific strategies regarding gender issues. This report on gender in Papua New Guinea intends to lay the foundation for such a strategy. The report provides an outline of the key historical, economic, demographic, political, geographic, socio-cultural, legal and institutional issues that are relevant to understanding the status of women in Papua New Guinea today.

Papua New Guinea International Monetary Fund. Asia and Pacific Dept,2018-12-03 The Papua New Guinea (PNG) economy has grown sluggishly in recent years, reflecting a combination of domestic and external factors. External factors have included adverse terms of trade movements, a drought, and, in 2018, a large earthquake. Domestic factors have included a difficult fiscal consolidation and a shortage of foreign exchange, sustained by an overvalued exchange rate, leading to import compression and weak investment in the non-resource sector. The main macroeconomic challenges for the government are to finish putting in place policies that will help promote economic stability, and to strengthen its long-term development framework. In 2017-18, the new government made important progress in narrowing the fiscal deficit, and adopted a medium-term revenue strategy. But progress on fiscal consolidation has stalled, and the debt-to-GDP ratio is well above the medium-term target. Monetary authorities have begun to facilitate exchange rate adjustment and strengthening of the monetary framework. Stronger economic policies, involving more ambitious fiscal consolidation coupled with faster exchange rate adjustment would yield favorable results.

Islam and Cultural Change in Papua New Guinea Scott Flower,2016-08-12 Scholars of religion and policy makers may be

surprised at the changes occurring on the second largest island of the world that straddles one of the most Christianised and least Christianised areas of the world. This book provides an accurate and deeper understanding of the nature of Islam in Papua New Guinea, and determines the causes and processes of recent growth in the country's Muslim population. Combining ethnographic, sociological and historical approaches to understanding Islam's growth in Papua New Guinea, the book uses extensive fieldwork, interviews and archival records to look at the establishment, institutionalization and growth of Islam in a country that is predominantly Christian. It analyses the causes and processes of conversion, and presents a new analytical approach that could be used as a basis for analysing Islamic conversions in other parts of the world. Presenting an interdisciplinary approach to the study of Islamic conversion thorough the examination of the causes and process of Islamic conversion in Papua New Guinea, the book is of interest to students and scholars of Asian Religion, Islamic Studies and Cultural Studies.

God Knows Best: Apec Png 2018: My Way Lahui Ako, 2023-04-10 Lahui Ako, a former diplomat, and PNG APEC Senior Official, recounts the complex, difficult, and sometimes treacherous path he faced in the world of multilateral diplomacy, both by himself, and his country, when it committed to host and chair APEC in 2018. He tells of the political barriers, the diplomatic innuendos, the financial hurdles, and the organizational complexity he encountered, from the planning phases in 2012, right up to being in the cross-fire of the nationalistic Trump officials, and China's aggressive "wolf warrior" diplomats where hard choices had to be made in November, 2018. Ultimately, there wont be a consensus APEC 2018 Leaders' Declaration, but Lahui and his team will acquit themselves well; simply, because, their God knows best.

Storytelling with Data Cole Nussbaumer Knaflic, 2015-10-09 Don't simply show your data—tell a story with it! *Storytelling with Data* teaches you the fundamentals of data visualization and how to communicate effectively with data. You'll discover the power of storytelling and the way to make data a pivotal point in your story. The lessons in this illuminative text are grounded in theory, but made accessible through numerous real-world examples—ready for immediate application to your next graph or presentation. Storytelling is not an inherent skill, especially when it comes to data visualization, and the tools at our disposal don't make it any easier. This book demonstrates how to go beyond conventional tools to reach the root of your data, and how to use your data to create an engaging, informative, compelling story. Specifically, you'll learn how to: Understand the importance of context and audience Determine the appropriate type of graph for your situation Recognize and eliminate the clutter clouding your information Direct your audience's attention to the most important parts of your data Think like a designer and utilize concepts of design in data visualization Leverage the power of storytelling to help your message resonate with your audience Together, the lessons in this book will help you turn your data into high impact visual stories that stick with your audience. Rid your world of ineffective graphs, one exploding 3D pie chart at a time. There is a

story in your data—Storytelling with Data will give you the skills and power to tell it!

Mathematics Education in a Neocolonial Country: The Case of Papua New Guinea Patricia Paraide, Kay Owens, Charly Muke, Philip Clarkson, Christopher Owens, 2023-01-10 Most education research is undertaken in western developed countries. While some research from developing countries does make it into research journals from time to time, but these articles only emphasize the rarity of research in developing countries. The proposed book is unique in that it will cover education in Papua New Guinea over the millennia. Papua New Guinea's multicultural society with relatively recent contact with Europe and the Middle East provides a cameo of the development of education in a country with both a colonial history and a coup-less transition to independence. Discussion will focus on specific areas of mathematics education that have been impacted by policies, research, circumstances and other influences, with particular emphasis on pressures on education in the last one and half centuries. This volume will be one of the few records of this kind in the education research literature as an in-depth record and critique of how school mathematics has been grown in Papua New Guinea from the late 1800s, and should be a useful addition to graduate programs mathematics education courses, history of mathematics, as well as the interdisciplinary fields of cross cultural studies, scholarship focusing on globalization and post / decolonialism, linguistics, educational administration and policy, technology education, teacher education, and gender studies.

Engendering Violence in Papua New Guinea Margaret Jolly, Christine Stewart, Carolyn Brewer, 2012-07-01 This collection builds on previous works on gender violence in the Pacific, but goes beyond some previous approaches to 'domestic violence' or 'violence against women' in analysing the dynamic processes of 'engendering' violence in PNG. 'Engendering' refers not just to the sex of individual actors, but to gender as a crucial relation in collective life and the massive social transformations ongoing in PNG: conversion to Christianity, the development of extractive industries, the implanting of introduced models of justice and the law and the spread of HIV. Hence the collection examines issues of 'troubled masculinities' as much as 'battered women' and tries to move beyond the black and white binaries of blaming either tradition or modernity as the primary cause of gender violence. It relates original scholarly research in the villages and towns of PNG to questions of policy and practice and reveals the complexities and contestations in the local translation of concepts of human rights. It will interest undergraduate and graduate students in gender studies and Pacific studies and those working on the policy and practice of combating gender violence in PNG and elsewhere.

The Report: Papua New Guinea 2012 ,2012 Contains information about the key sectors in Papua New Guinea (PNG), such as LNG and agriculture, as well as investment opportunities and interviews of important politicians and businesspeople.

Improving agricultural productivity in Papua New Guinea: Strategic and policy considerations Benny, Dickson, Benson, Todd, Ivekolia, Mark, Kedir Jemal, Mekamu, Ovah, Raywin, 2022-02-10 If smallholder farming households in Papua New Guinea achieve higher crop productivity levels, progress will be made along several dimensions of the development vision for PNG -

increasing GDP for the agricultural sector and the overall economy; driving growth, diversification, and transformation of local rural economies; improving food consumption; and reducing poverty. In this paper, we examine recent data on yields for the most important crops grown in PNG, assess what yields might be achieved based on productivity data from areas of Indonesia with similar growing conditions, and sketch where policy reforms could provide incentives and access to technologies to achieve higher crop yields by all farmers across PNG.

Papua New Guinea International Monetary Fund. Asia and Pacific Dept,2023-03-29 Papua New Guinea (PNG) is a fragile state, vulnerable to natural disasters and terms of trade shocks. Low commodity prices in 2014-20, a severe drought in 2015-16, and a major earthquake in 2018 softened growth, led to shortages of FX, and contributed to a pre-pandemic build-up of public debt. The pandemic further increased public debt, which is now at high risk of distress, while development needs remain considerable.
